CAN DO FOR YOUR HOME.

**NO MATTER WHAT COLOR OR PROFILE YOU
SELECT, IT WILL BE CUSTOM-FIT
AND LOOK AMAZING!**

KYNAR500[®] **CoolPaint**
BY ARKEMA TECHNOLOGY™

Whether you are looking to upgrade your siding, change your home's style, choose a new exterior color, or are planning for repairs, United States Seamless is here to help! We are proud to offer many different exterior building options that are easy to maintain and have worry-free warranties.

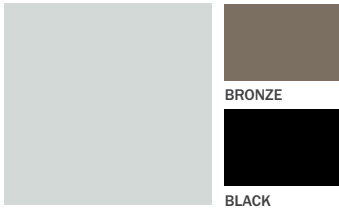

With a wide selection of siding profiles, colors, and accessories, it's no wonder we are homeowners' #1 choice for new siding. Our products are made in the USA, manufactured to the exact length on-site, and custom-fit to your home.

United States Seamless' seamless siding will always have that clean, beautiful look, free from splices and ugly seams, in a color palette that is sure to please.

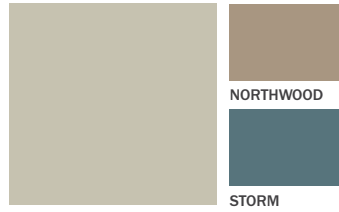

COLOR PERFECT FINISH | Kynar 500®/Hylar 5000®

Our color perfect finishes coordinate across our siding, soffit, fascia, rain carrying systems, architectural trims, and accessory line to complete your design vision and enhance all architectural styles—without the maintenance.

UNITED STATES SEAMLESS USES THE WORLD'S MOST RECYCLED MATERIAL

Ninety-five to 100% of steel and aluminum are recycled globally. The life expectancy is greater for steel and aluminum products than most other materials such as vinyl, wood, or fiber cement. Steel siding and aluminum soffit and rain carrying systems are 100% recyclable at the end of a long useful life. On jobsites, steel and aluminum material waste is easily separated and recyclable. We strive to manufacture products that promote a healthier environment for all. From the stringent eco-guidelines followed by our paint line to our commitment to using recycled steel and aluminum, United States Seamless keeps moving forward with the environment.

Recycling steel and aluminum on a jobsite is also compensated by the value given when recycling. In addition, due to the incredibly long life and documented durability, steel siding is aesthetically pleasing and makes an attractive investment. United States Seamless is focused on promoting and supporting our environment in all that we do. We are committed to finding ways that we can lead the industry in reduced environmental impact.
