Seamless Siding and Accessories

[usseamless.com](http://usseamless.com)

# TIMELESS BEAUTY. PROVEN PERFORMANCE. SUPERIOR STRENGTH.

United States Seamless® offers homeowners more options than ever before. Whether you are looking for new siding because you are upgrading, wanting to change the style or color, needing to repair, or require something that is easy to maintain and has a worry-free warranty, United States Seamless is here to provide you with professional help from start to finish. United States Seamless consists of local small-business owners that are supported by a national program.

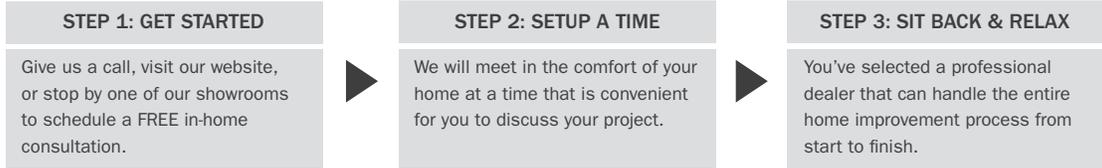

With a wide selection of siding profiles, colors, and accessories, it's no wonder we are the #1 choice. Our products are made in the USA, manufactured to exact length on-site, and custom-fit to your home.

Our seamless siding will always have that clean, beautiful look, free from splices and ugly seams, in a color palette that is sure to please.

## EXPERIENCE UNITED STATES SEAMLESS...THE PROCESS IS EASY!

# OUR DIFFERENCE

Peace of mind is a vital component of doing business with a United States Seamless affiliate. Our process is “seamless.” From the initial call to filling out the warranty, your experience with United States Seamless will be enjoyable and transformational for your home. We will work with you to make sure it goes smoothly.

We began franchising in 1992 with the goal to lead the siding industry by offering seamless siding solutions, professional installation, superior service, and strong warranties. We have since grown the benefits and value into a comprehensive program. Whether remodeling contractors, new construction contractors, or homeowners, more people are selecting seamless steel siding for their exterior.

See for yourself the difference our standards for quality and service will make in transforming the exterior of your home.

## WE MAKE IT EASY TO... RESTORE, PROTECT, & PRESERVE YOUR HOME FOR A LIFETIME.

- ✓ *Start-to-Finish Process*
- ✓ *Renewable & Innovative Materials*
- ✓ *Professional & Certified Installation*
- ✓ *Experience & Knowledge*
- ✓ *Best Siding Warranty on the Market*

### UNMATCHED HISTORY

When investing in your home's exterior with products from United States Seamless, you can rest assured that your home is protected by the best exterior products warranty in the industry. Our warranties are strong, and you'll have peace of mind knowing your new seamless exterior will retain its beautiful, maintenance-free appearance year after year. Guaranteed.

**DID YOU KNOW?**

You can eliminate costly and time-consuming painting and maintenance of the hard-to-reach areas of your home with a coordinated soffit, fascia, and rain carrying system from United States Seamless. Our soffit and fascia systems provide a beautiful finished appearance.

Our Mission is  
**100% Customer Satisfaction.**

**CUSTOMER SERVICE**  
Our professional home improvement consultants and expert installation teams are with you every step of the way.

**INNOVATIVE PRODUCTS**  
Keep your home's beautiful seamless appearance the color you intended it to be with our durable, no-fade paint finishes.

**CERTIFIED INSTALLATION**  
Our installers are experienced and understand the steps involved with installing your siding properly.

**STRONGEST WARRANTY**  
We offer the best warranty of any seamless siding manufacturer, and it is fully transferable.

# WHY SEAMLESS SIDING?

United States Seamless is taking the home exterior remodeling industry to a new level. Our siding is different from others, because it's seamless and made from steel. Other siding products must be constantly overlapped or shoved together every 12 feet or less to reach the length of your home, which creates a pattern of ugly splices and joints. The average home has more than 130 splices. With United States Seamless' steel siding, we eliminate those unsightly splices and joints. That's why we say, "We'll go to ANY length to beautify your home." We are even in the Guinness Book of World Records for the world's longest continuous piece of seamless steel siding, measuring 239 feet, 9 inches!

Some homeowners say the way we install seamless siding on a house is "magical." You can see it happen right before your eyes. Each piece of seamless siding is custom-fit to the exact measurements of your home. With year-round installation capabilities, our portable siding machines manufacture each and every panel at your home. No matter what colors or profiles you select, they will be custom-made for your home. Increasing your curb appeal is that simple, and you are going to love what United States Seamless can do for your home.

Seamless Siding

## FREE FROM...

Seamless steel siding from United States Seamless not only frees you from time-consuming maintenance, it frees you from seams and joints, fading, chipping, flaking, cracks, warping, bubbles, and so much more.

Peeling Paint

Cracked Stucco

Gaps in Fiber Cement

Warped Vinyl

## SAVING TIME & MONEY

Maintenance-free seamless siding does more than save time—it saves money. With seamless steel siding from United States Seamless, there's no need for priming, caulking, painting, staining, sealing, or patching to maintain the exterior appearance of your home. Your siding will look freshly painted for years to come with little-to-no maintenance. Time and money once spent maintaining and repairing siding can be spent enjoying life with family.

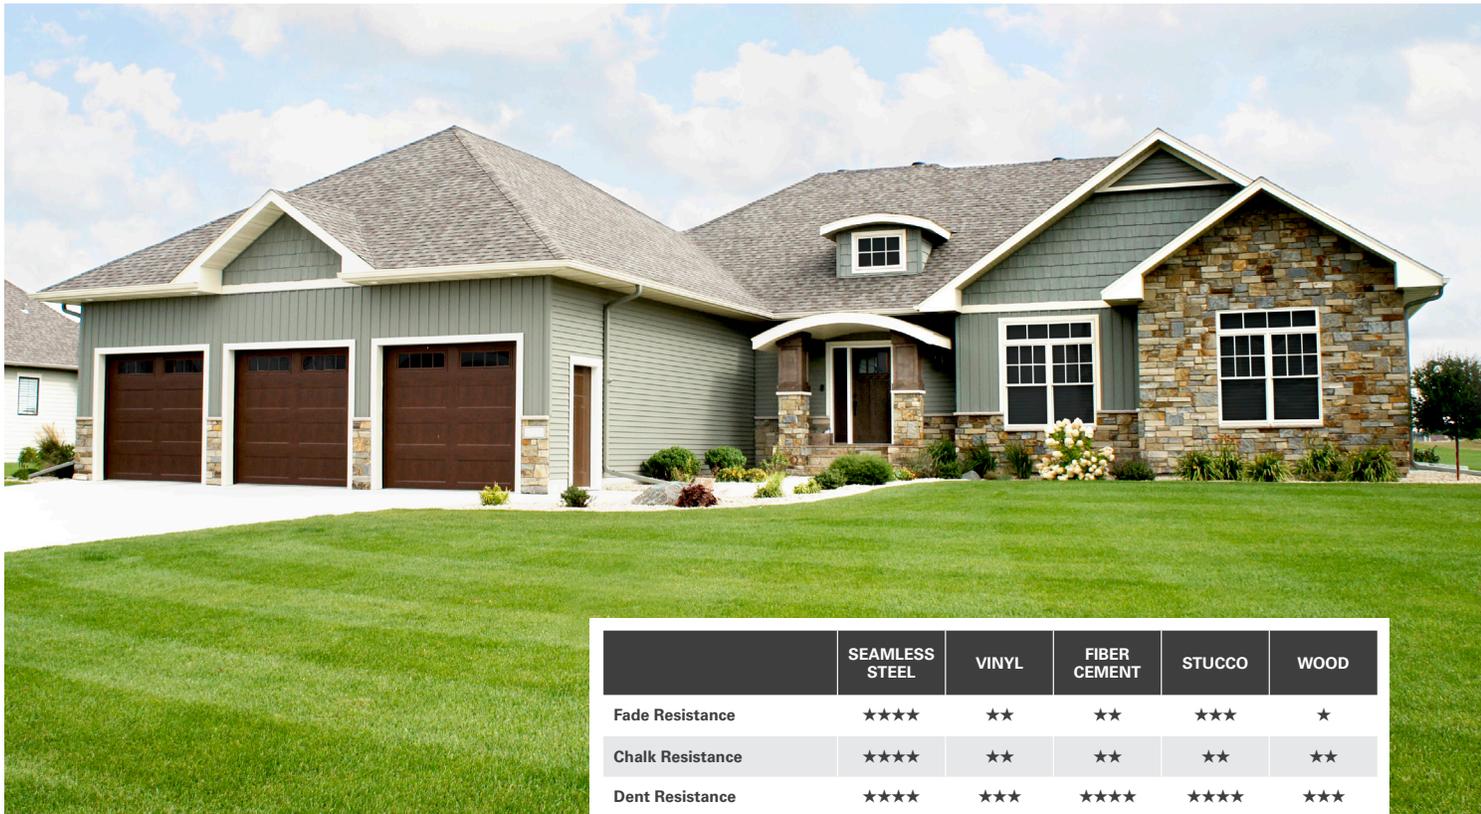

## STRONGEST WARRANTY

When investing in your home's exterior with products from United States Seamless, you can have confidence knowing that your home is protected by a limited lifetime warranty against defects. Our warranties are the best in the industry, and you'll have peace of mind knowing your new seamless exterior will retain its beautiful, maintenance-free appearance year after year. Guaranteed.

## BEAUTY. DURABILITY. SUSTAINABILITY.

Combine the durability of steel with our seamless technology, and homeowners will have a product that makes their home look great. There are many important attributes of steel siding that have driven its success, and maintenance freedom is a feature that homeowners value greatly. Steel siding requires virtually no maintenance. You eliminate most of your annual exterior work and only have to rinse your exterior with a garden hose.

Seamless siding substantially reduces moisture intrusion, which can cause structural deterioration. Because there are no seams or joints to penetrate, this first layer of defense is essential. It is also important to have a well-installed moisture barrier. United States Seamless projects typically use an approved underlayment and are installed by trained professionals. With United States Seamless' maintenance-free exteriors, you'll get a beautiful home exterior look, without the effort.

### WHY AMERICA SIDES WITH SEAMLESS STEEL SIDING

Your home is very likely one of your biggest investments. It's a place of safety and security for you and your family. Protect and trust your home to United States Seamless. We are homeowners, like you, and we know how important it is to keep a home looking beautiful. With a wide selection of siding profiles, colors, and accessories, it's no wonder we are the #1 choice in American-made seamless steel siding and accessories.

## CUSTOMER-FOCUSED ENGINEERING & INNOVATION

Metal has been used for the construction of buildings and homes for over 2,500 years! At United States Seamless, we are committed to building responsibly by respecting our environment through the use of energy-efficient materials and green-friendly products. Let United States Seamless help make your environment a little greener—our products will not only save you money on energy costs, they also make your home a safer place to live and breathe. Many of the products we carry are energy-efficient, and we have made a commitment to continue to carry products that are long-lasting, reduce energy costs in your home, and help to reduce strain on our environment.

- Metal products have the greatest resistance to wind, hail, and wind-driven rain
- ENERGY STAR® compliant finishes
- Made of recycled content and is 100% recyclable at end of product life
- Steel is one of the most recyclable building materials in the world
- Seamless steel siding substantially reduces moisture intrusion, which can cause structural deterioration
- Metal products are durable and have a long-life
- Easy to clean and virtually maintenance-free

Since steel siding does not require painting, staining, or caulking, no harmful emissions are released into the environment from solvents used to maintain it. As a result, steel siding can earn points in leading green building certification programs.

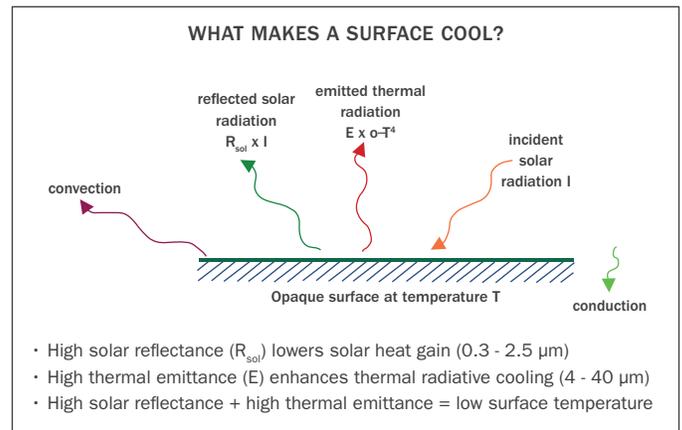

### MAINTENANCE FREEDOM

Our exterior paint finish will give your home's exterior an easy-to-clean, stain-resistant finish. A simple rinse with your garden hose is all you will need to do to keep your siding looking fresh and clean all year long. With United States Seamless siding, you will free yourself from high-maintenance exteriors. Best of all, you will never have to paint or stain your home again.

## ENERGY-EFFICIENT EXTERIORS

The most effective way to achieve better energy efficiency is through an integrated “whole house” approach. Our exterior coatings are ENERGY STAR® compliant to help make your home more energy-efficient, saving you money and protecting our environment. Our products are enhanced with Cool Paint Technology™ (CPT). CPT is a technology developed for NASA’s space shuttle program that uses infrared reflective pigments in the paint to cool the surface. CPT is also used to improve the energy-efficiency of a home’s exterior by reflecting solar and thermal radiation.

0 - PENETRATION

Heat Deflection: United States Seamless exterior collections receive a Very Good (4) to Excellent (5) rating. PVC-coated material absorbs heat (0-1) rating.

## COLORS & STYLES

Homeowners need choices, not limitations, in order to turn their dreams into reality. Along with our extensive color palette of endless color combinations, we’ll also provide you with an array of profile options that will define the characteristics of your home. Our color perfect finish coordinates with our soffit, fascia, rain carrying systems, architectural trims, and accessories to complete your design vision and enhance all architectural styles—without the maintenance. Choose from dozens of decorative options like window cladding, door surrounds and headers, banding and baseboards, gable accents, and shutters. Just talk with your United States Seamless home exterior specialist or visit our website at [www.usseamless.com](http://www.usseamless.com).

# EXTERIOR COLOR COLLECTION

Design an exterior look that reflects your style with colors from our beautiful color palette. There are many colors to choose from, ranging from deep vibrant colors to more subtle earth tones. Our color perfect finishes coordinates with our accessories, soffit, fascia, and rain carrying systems.

## ACCENT OPTIONS

Designed for accent applications, United States Seamless dealers offer a variety of options for accenting your home's exterior. Use different United States Seamless profiles like vertical siding, or other sourced materials such as shakes, accent shingles, louvers, shutters, etc. These small touches can add dramatic accents to porches, gables, and other architectural elements, giving your home's exterior a unique style and expert curb appeal.

# SOFFIT, FASCIA, & RAIN CARRYING SYSTEMS

Protect and beautify your home with a maintenance-free, color-coordinated rain carrying system by United States Seamless. Our system is designed to work as a complete protection and beautification package. Our color perfect finish coordinates with our soffit, fascia, and trim accessories, allowing you to complement, match, or contrast the accents of your home, making it a one-of-a-kind work of art.

## SYSTEM FEATURES

With United States Seamless soffit and fascia, you will eliminate costly painting of those hard-to-reach places like eaves and overhangs, while preserving the integrity of your home's structure. We take a "whole-system" design approach to assure product compatibility and performance, along with a perfect fit.

- Available in many exterior colors
- Easy-to-clean, stain-resistant finish
- No-fade, no-chalk—just long-lasting color
- Steel fascia, aluminum soffit, aluminum rain carrying systems, and other accessories
- Carries a limited lifetime warranty

## OUR SYSTEMS WILL:

- Provide proper ventilation that controls attic temperature and air flow
- Reduce expensive annual maintenance costs
- Help control moisture and rotting problems
- Protect roof overhangs
- Add curb appeal, longevity, and increase the value of your property

## DOWNSPOUTS THAT MAXIMIZE WATER FLOW

United States Seamless affiliates use our innovative 3x3 downspout, referred to as the Superspout™. This residential 3 in. square downspout and elbow reduces clogging and improves water flow over conventional downspouts. In addition to capacity increases, the Superspout has great curb appeal as it maintains a streamlined look and is stronger than conventional downspouts. Maximize your home's draining potential without the bulky look of ugly commercial downspouts by selecting the Superspout.

## RAIN CARRYING SYSTEM DESIGN

United States Seamless rain carrying systems are designed to effectively channel water off your roof and away from your home. Like our soffit and fascia, our rain carrying systems are available in a full palette of colors and styles, allowing you to create a beautiful finishing touch. United States Seamless rain carrying systems include seamless gutters, elbows, downspouts, miters, and other attractive accessories. Like our siding, our seamless gutters are custom-manufactured on-site by trained and certified professionals.

## MAINTENANCE FREEDOM

The wonders of nature are truly amazing, but they can also be hard on your home. Eaves, overhangs, porch ceilings, and fascia—often the least noticed areas of your home's exterior—can blister, peel, or rot. Let United States Seamless add the finishing touch and make your home virtually maintenance-free.

# THE POSSIBILITIES ARE ENDLESS...

Nothing will affect the appearance of your home more dramatically than the exterior siding you choose. Traditional, Colonial, Victorian, and Contemporary—they are all possible with United States Seamless.

## TRADITIONAL

Traditional homes love what United States Seamless has to offer them. With a variety of profiles, like our horizontal 4", 5", and 6", and our depth of colors and accessory options, your home's exterior style will prevail. Enhance the traditional look of your home with United States Seamless.

## CRAFTSMAN

When choosing a siding color for your Craftsman style home, go with colors that make the architecture stand out. Siding colors like a sage or brick, with light trim, create a sufficient departure from the surrounding greenery. Also, mix horizontal siding profiles with shake or shingle accents.

# ...WHEN SIDING WITH UNITED STATES SEAMLESS.

As you go through the selection process, you'll find profiles, accessories, and colors that suit the architectural style of your home and lifestyle, and will enhance your home's curb appeal.

## CONTEMPORARY

A clean, smooth, seamless exterior, paired with a mix of profiles like our 6", 8", or 10" verticals, can easily help create or enhance your home's contemporary look. Color selection can also create a contemporary look by choosing cool grays, whites, and more vibrant shades.

## RANCH STYLE

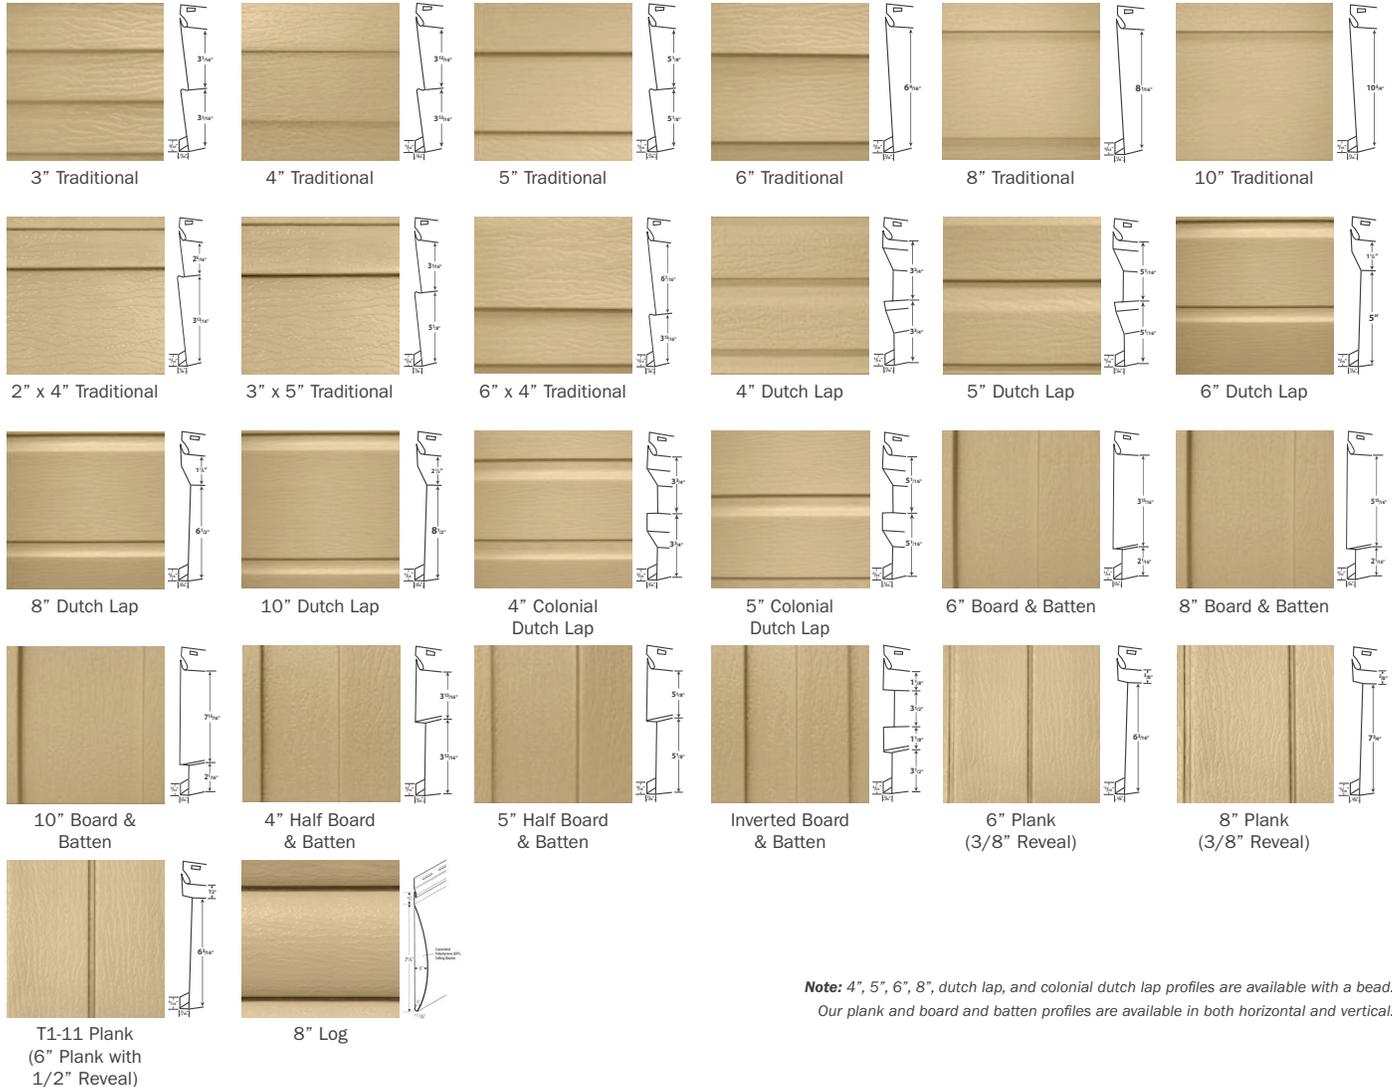

Ranch architecture features open floor plans and easy connections to the outdoors. They consist of an earth tone color palette and feature narrower siding profiles, such as double 3" and double 4" horizontals. Single-floor and split-level floor plans live under the ranch style.

# OUR DESIGN & SELECTION PROCESS IS EASY

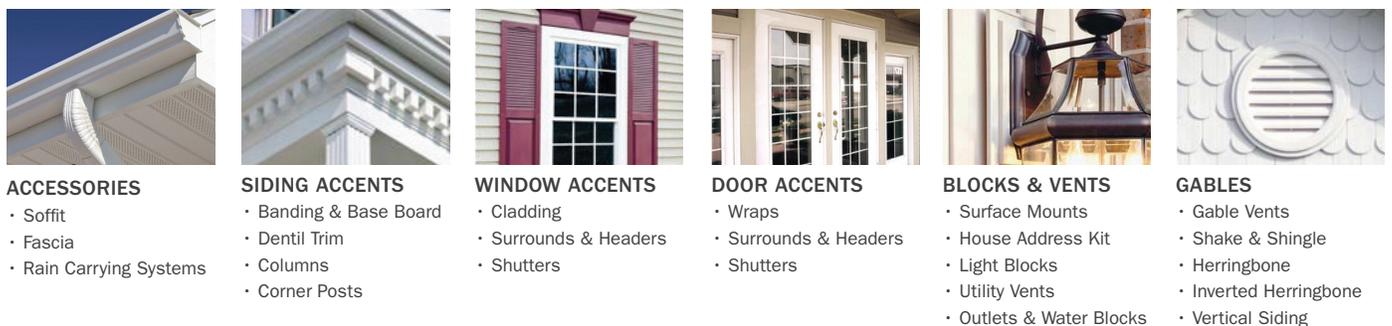

A beautiful and seamless exterior can transform your home. Let us walk you through this rewarding process with more panels and colors for exterior replacements. It is easy, and we provide the perfect solution to give you the curb appeal you desire.

## STEP 1: SIDING PANELS

## STEP 2: ACCENTS & ACCESSORIES

Visit our website at [www.usseamless.com](http://www.usseamless.com) to view a gallery of accessory options.

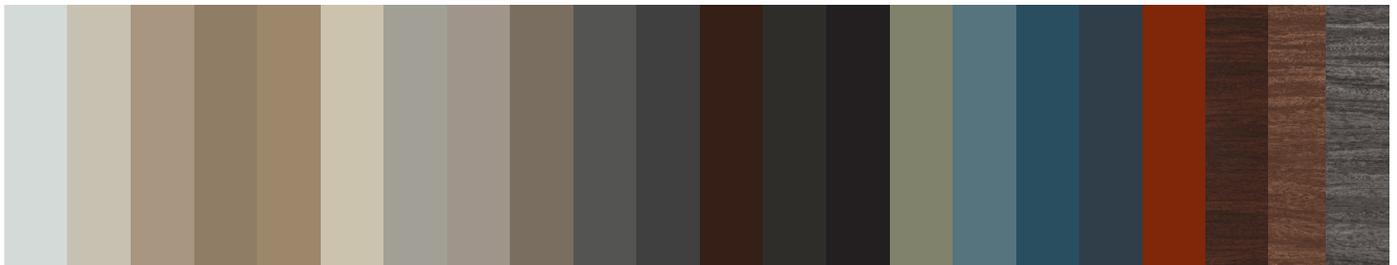

## HELLO COLOR

Look through our photos online or let our exterior design specialists work with you to select that perfect exterior color and profile combination. We love what we do, transforming home exteriors across the United States!

### STEP 3: EXTERIOR COLORS

Colors are representations, please refer to an actual metal sample. Other colors are available. Ask your United States Seamless dealer.

# INSTALLATION FROM START TO FINISH...

The United States Seamless process starts with our consultative sales approach. Our experienced home improvement specialists will work with you to find solutions to enhance your home's integrity, energy efficiency, and curb appeal.

United States Seamless steel siding is custom manufactured on location. Our trailers contain our innovative roll-forming equipment and tools. Our professional installation teams work year-round to install seamless siding—whether it's winter, spring, summer, or fall. Our trailers are heated, so cold weather is not an issue. Whatever season you decide to re-side, know that we pride ourselves on our superior craftsmanship.

## CERTIFIED INSTALLERS

Working with United States Seamless means you'll have peace of mind knowing there are standards for installation, and certification courses for installers. Our installers are experienced and understand the many critical steps involved in installing your new siding properly. We offer intense hands-on training and certification courses to ensure that they are current on installation methods and techniques.

## GENERAL SAFETY

Safety is something United States Seamless doesn't take lightly. You can be assured that we will maintain a clean work-site. We take precautions to preserve your landscaping, secure equipment when not in use, and use magnets to keep landscaping free of debris. Our equipment and machines are certified, and our installation crews go through regularly scheduled safety training. Not only will we provide a safe work environment for our employees, but we will also ensure our customers' safety, as we abide by EPA regulations on Lead Safe Renovations; our dealers are trained to follow EPA guidelines.

## LICENSED, INSURED, & BONDED

Your coverage doesn't end with our warranties. Our dealers are licensed, insured, and bonded. They are in good standing with local communities and highly rated by the Better Business Bureau.

### **UNITED STATES SEAMLESS USES THE WORLD'S MOST RECYCLED MATERIAL**

Ninety-five to 100% of steel and aluminum are recycled globally. The life expectancy is greater for steel and aluminum products than most other materials such as vinyl, wood, or fiber cement. Steel siding and aluminum soffit and rain carrying systems are 100% recyclable at the end of a long useful life. On jobsites, steel and aluminum material waste is easily separated and recyclable. We strive to manufacture products that promote a healthier environment for all. From the stringent eco-guidelines followed by our paint line to our commitment to using recycled steel and aluminum, United States Seamless keeps moving forward with the environment.

Recycling steel and aluminum on a jobsite is also compensated by the value given when recycling. In addition, due to the incredibly long life and documented durability, steel siding is aesthetically pleasing and makes an attractive investment. United States Seamless is focused on promoting and supporting our environment in all that we do. We are committed to finding ways that we can lead the industry in reduced environmental impact.
